THE INTERIOR MUSEUM PRESENTS

# ***LIVING LEGACY*** *Managing the Wild Horses & Burros of the American West*

*Since 1971, the Bureau of Land Management has overseen over 26,000 wild horses and burros on public lands in the West. With over 10,000 excess animals on public land and nearly as many in short and long term holding facilities, the management of this program has needed to evolve. BLM Assistant Director for Renewable Resources and Planning **Edwin Roberson** will discuss how the Bureau is using enhanced science, improved fertility control, partnerships, adoptions, and sanctuaries to modify its efforts.*
